

ME 317: Design for Manufacturability

Authentication

All SCPD academic courses require registration. Our online materials require a SUNet ID (Stanford Network account ID) to log on.

- **Non-degree students (NDOs)** will receive a Stanford University student ID number in your enrollment confirmation letter. If you have not received a Stanford ID number, contact SCPD Registration to determine your enrollment status.

Once you have your University ID number,

- Go to: <http://sunetid.stanford.edu>.
- Click "Request my own SUNet ID."
- In the "Enter your Stanford ID" box, type your University ID, and click continue.

Note: Your SUNet ID is permanently assigned to you. If you are not enrolled for the next quarter, your SUNet account will be deactivated automatically. When you enroll again, your SUNet account will be sponsored again.

- **Moderators** will follow a slightly different process:
 - Go to: <http://sunetid.stanford.edu>, if you do not already have a SUNet ID.
 - Click "Request my own SUNet ID," if you do not have a Stanford student ID number.
 - Click on "provide other identification."
 - Enter your name and other information and click "Continue."
 - Select your SUNet ID and click "Continue."
 - Follow the instructions on the page to select your password and click "Continue."

When you have successfully created your SUNet ID, or are "reactivating" your SUNet ID, send a message to scpd-registration@stanford.edu asking SCPD to sponsor your SUNet account. Please include the following information:

- Your full name
- Class(es) you are auditing
- Your SUNet ID

Viewing Courses on Stanford Online

1. Go to the SCPD home page (<http://scpd.stanford.edu>).
2. Go to the top right hand corner "jump to" box. Select "Online Classroom."
Or Click "Stanford Online Classroom" from the Academic Schedule section.
1. Click Academic Courses.
2. Scroll down to find your course.
