

ME317 Team Contribution Evaluation

The purpose of this form is to get feedback from the students on how they feel their teammates contributed to the project. This will help the ME317 teaching team in determining part of the course contribution grade.

Place yourself in the position of the manager of your project team. You are to divide a hypothetical 10,000 golden nuggets between the other project team members (you **cannot** distribute golden nuggets to yourself). Base your allotment on your perception of each member's contribution to the project.

On-Campus submission instructions: **This form is due by 16:00, Wednesday, June 3rd**. Please hand them in class or deliver them to the box in the MML.

For Off-Campus teams wanting to use this method, please contact your moderator, coach, or the TA assigned to your site.
